KARACHI: A colloquium on Mathematics with the theme of 'Forecasting— Applications in Actuarial Science, Business, Computer Science, Economics, Engineering, Finance and Management,' is scheduled to take place at the auditorium of the Institute of Business Management (IoBM), Korangi Creek on 19th, says an announcement of the IoBM Public Affairs Section.

Participants on this occasion would be national experts on the theme of the colloquium. As such, the colloquium is scheduled to be represented by concerned academia, corporate sector and professionals. The program has been so designed that, besides speeches and presentations, due time will be available for discussion and open exchange of ideas and insights on the topic of the colloquium.

The inaugural session of the colloquium includes the presentation of Shahid Siddiqui, Chairman State Life Corporation. Presentation is also to be made by Haroon Askari, MD, KSE and from Ishaq, Pak Qatar Takaful.

The technical session will be chaired by Dr. Jawed Qumar, DBIHE. Talib S. Karim, Rector and Executive Director Academics, IoBM would present the introduction of the institute. In spite of their undeniable importance, the subject and the field of Mathematics are not getting proper attention. To address this problem and to find strategies to flourish and develop the applications of Mathematics in contemporary fields of development, IoBM has decided to conduct a series of Mathematics colloquiums addressing the concerned national developmental perspective.

The four consecutive Colloquiums on optimization (2007), simulation (2008), financial mathematics (2009), and risk management (2010) with applications in Business, Computer Science, Economics, Management and Finance were well-appreciated and proved to be mutually rewarding for the participants. IoBM Mathematics colloquium scheduled on March 19, with the theme of forecasting in concerned fields as mentioned, is the fifth colloquium in this regard.—PR
