

MBA in Educational Management

“Education Administrator [Manager] is included in one of the 50 best careers of 2011; this should have strong growth over the next decade.”

2010 US News & World Report

(Financial Assistance Available)

Introduction to the Program

The Institute of Business Management (IoBM) offers a two-year as well as a three-year MBA in Educational Management. These programmes are intended for teachers and administrators with current or prospective management responsibilities in educational institutions. It will enable them to develop the knowledge and skills to play a key role in educational management and staff development, as well as to develop effective teaching skills.

Aims

- › To offer an opportunity to reflect on current management practice in schools, colleges and universities
- › To enable participants to make an effective and contemporary contribution to quality education within the institutions in which the work
- › To contextualise current education management issues in relation to historical, economic and political factors
- › To provide a critical guide to the extensive education management literature

Salient Features

- › Qualified and experienced faculty
- › Tailor-made to meet the needs of teachers / supervisors / headteachers / educational managers working in private and public sector educational institutions
- › Based on an amalgamation of models offered by some prestigious UK universities
- › Opportunity to apply theory to practice
- › Focus on educational research with a special application on field-based/action research
- › Availability of English language support for the participants throughout the programme as well as close guidance and monitoring during the research process

Entry Requirements

As per HEC policy, applicants are required to have sixteen years of education to become eligible for admission to a two-year program and fourteen years of education to become eligible for a three-year program.
