Since our very inception, we have continuously endeavored to enhance our core institutional strengths, and have invested in people, systems and infrastructure, so as to be able to impart sound knowledge and professional skills as well as instill sterling values in our students.

Late Shahjahan S. Karim
Founder President
Institute of Business Management
The Institute of Business Management aims to be one of the leading institutes nationally and internationally for imparting knowledge, skills, confidence, and values to its students, thereby, enabling them to become successful professionals globally.

The mission of the Institute of Business Management is to foster a learning environment where students are motivated to make learning an on-going life-long process. We see ourselves as a multi-dimensional educational institution.

Our aim is to:

• Use the best teaching and training methodologies
• Prepare students to excel academically as well as in management skills to function ethically and take effective rational decisions in all endeavors of life
• Pursue leading-edge research
• Engage in the development of innovative ideas and analytical, interpersonal and leadership skills
• Allow freedom of thought and expression
• Encourage both faculty and students to be independent and creative thinkers
• Commit to our students and other stakeholders to create responsible future global leaders
My dear students, let us mutually and humbly share the pertinent reality that MashAllah IoBM is known at home and abroad for imparting quality education in business management and allied disciplines. This is basically due to the iconic insights and inspiration of its Founder President, Late Mr. Shahjehan Syed Karim.

During these twenty-five years or so, this Institute has evolved to become one of the best business schools in the country offering degrees in a number of programs pertaining to higher education and research. With the guidance of its management and efforts poured in by its faculty, IoBM now stands as a vivid model of academic and professional excellence.

Today, IoBM is known in the corporate sector of Pakistan for its bright graduates and learned faculty who are always motivated by the able and humble guidance of its management.

IoBM has been given tremendous value by the Higher Education Commission (HEC), Government of Pakistan and has been rated among the best business schools by the Chartered Inspection and Evaluation Committee (CIEC), Government of Sindh. IoBM graduates are working in top managerial and executive positions in private and public sector organizations. While IoBM has gathered national and international credibility, the distinctive feature of this Institute is exploring and surpassing international educational prospects in Asia and from North America to Europe and beyond. IoBM’s interaction with universities in Europe through Erasmus Mundus, a consortium of European universities and with South Korea and China in the Far East, is worth-mentioning, especially regarding students exchange programs. The visit of IoBM’s Late Founder President, Mr. Shahjehan Syed Karim, to Italy, France, Georgia and Germany for bilateral and multilateral academic cooperation is a prime example of IoBM’s expanding international vistas.

Imparting quality education through career-oriented curriculum and blending the same with such relevant objectives as involving students in co-curricular and extracurricular activities are IoBM hallmarks indeed. Moreover, students need to be engaged in experiential learning classroom initiatives, therefore, enabling them to follow the practical concept of learning by doing. The Capstone Projects, which students pursue at IoBM during their MBA program, is one such shining example where theoretical concepts and practical learning go hand in hand. Requiring to establish a functional enterprise, students, amid the guidance of their inspiring faculty members, implement a particular aspect of the process such as organizational design consultations, niche research, planning, establishing the organization, creating a presence through networking, launching and creating awareness and funding their project with persistence and resolve.

I wish to witness our students’ efforts, dreams, hopes and aspirations trickle down to the grassroot level among the masses. Indeed, the need of the hour for our youth is to realize that sustainable socio-economic development must be amplified and improved upon to benefit those residing in the underprivileged areas of this country. Therefore, the essence of corporate social responsibility must be meticulously blended with a focused education in fields such as arts, humanities, commerce, management, science and so on.

I believe that IoBM’s career-focused programs will assist and facilitate students to take up all professional challenges that may come their way in this regard.
We constantly enhance our curriculum to meet the emerging needs of the industry, and cater to the increasingly challenging work environment. Our final year graduate level students work on capstone projects under faculty guidance, as a culminating scholastic experience and a prerequisite to their being entitled to a degree. Our bilateral agreements with over sixty universities allow selected students to study for a semester under our vibrant Students’ Exchange Program, at a partner university overseas.

Leading-edge research is a key component of our curriculum for graduate and post-graduate level students and arms them with the technical skills and intellectual insight. Our array of HEC-approved, X- and Y-category journals (PBR and JOEED) are testament to our research prowess. Our Office of Research Innovation and Commercialization (ORIC) also plays a pivotal role today in enhancing the capacity for research amongst our faculty, as well as MPhil and PhD level students.

As a not-for-profit organization we offer generous scholarships to at least 35% of our students, based on merit or need. Our Outreach Program, a brainchild of our Founder President, the late Shahjehan S. Karim, has entered its sixth year now. Under that program over 70 Outreach students are already enrolled in fully-funded undergraduate degree programs in Engineering at CES. We have also established an Endowment Fund; earnings from that fund will pay for the cost of nearly 200 meritorious students by the year 2024.

IoBM’s major achievements in 2020, on the academic front, was the re-accreditation of the College of Business Management (CBM), by the National Business Education Accreditation Council, or NBEAC, that works under the administrative control of the Higher Education Commission. CBM was recognized as a “W category Business School” and awarded re-accreditation for a period of five years, from 2020 to 2025. It may be worth pointing out that only seven universities in the country have qualified for full accreditation from NBEAC this year.

Another notable achievement has been in terms of an upgrade in our enduring relationship with ICAP, the Institute of Chartered Accountants of Pakistan. ICAP awarded IoBM the status of an RDAI, a Relevant Degree Awarding Institute, which is a first among all business schools in the country. This award, bestowed in 2020, recognizes IoBM as an education partner and will benefit those of our graduates who are interested in pursuing their higher education in the field of business and finance at ICAP. They will be exempted from several equivalent courses, and as a result, save valuable time.

Our vision as a center of higher-learning is very clear. We shall continue to invest time and resource to develop young men and women like you, into world class professionals in the years ahead.
I am pleased to welcome you to IoBM - an institution founded on the principles of lifelong learning, impeccable character-building, and the pursuit of a larger purpose in life. As a progressive institution committed to excellence in higher education, we have continuously explored new avenues of improvement in the curricula of our four Colleges – CBM, CCSIS, CESD, and CES.

Our faculty members, bring a blend of scholarly knowledge and practical industry experience to the classroom, and go beyond imparting quality education. Acting as mentors and advisers, they ensure that the students demonstrate their learning through active class participation and project presentations.

Leading-edge research is an essential part of our strategic goals, and is built into our MS and PhD programs. Students in the undergraduate and graduate programs also undertake academic and field research. Apart from the Pakistan Business Review, an X-category journal, we also publish the Pakistan Journal of Engineering Technology & Science, and the Journal of Education & Educational Development.

At IoBM, we have continually invested in infrastructure development. Consequently, apart from an array of custom-designed buildings, we also have dedicated IT labs, a fully equipped professional film-production studio, a well-stocked library, gym, and sports facilities.

We believe that higher education is the right of every deserving individual, including those coming from less privileged families. Hence, nearly 35% of our 5000 regular students today receive a scholarship based on merit or need. Additionally, our Outreach Program benefits over 70 students from nine districts of interior Sindh, who are currently enrolled in a four-year, fully-funded undergraduate degree program in Engineering.

After a modest start in 1995, IoBM - the vision of our Founder-President, the late Shahjehan S. Karim, has now transformed into one of the most highly regarded Higher Education institutions in the country. Over 11,500 alumni, who walked the corridors of this institution, now walk the corridors of power in reputable business organizations and public sector institutions with a sense of worthiness and achievement, or manage their own businesses with pride and panache.
5 REASONS WHY YOU SHOULD CHOOSE IoBM

01 GENEROUS FINANCIAL ASSISTANCE
- Over 100 Million PKR disbursed in 2017-2018
- Over 35% students currently avail some form of financial assistance
- 1000+ students studying on 10+ scholarship programs
- Over 1 Billion PKR disbursed since inception

02 STRONG ALUMNI NETWORK
- 12,000+ Graduates
- 95% of the graduates placed within the first 6 months
- 500+ Recruiting partners
- Active Alumni Association with strong networking

03 EXUBERANT CAMPUS LIFE
- Over 5000 Student Societies
- 100+ Society events in 2017-2018
- 50+ PhD faculty members
- 95% Alumni Association with strong networking

04 TOP CLASS ACADEMICS
- Over 30 HEC recognized degree programmes with accreditation from relevant bodies
- 8 Domain based & functional specializations in MBA program
- Research: 3 HEC recognized journals, Publications: 150 HEC recognized, 75 SCOPUS, 60 ISI

05 PURPOSE BUILT CAMPUS
- 21 Acres
- 98KW of green energy generated as part of 3 year plan for green campus
- 20,000 Litres of water recycled for plantation over campus
- 115 lecture hall, labs, media studio & library
CBM’s mission is to provide transformational and change leadership and management for the development of economy and society through excellence in character, professionalism, education and research. CBM focuses on developing graduates who are street-smart and go-getters; who can take on the challenge to create as well as transform startups. They obtain ‘leadership’ skills that can “change and transform” the current culture of existing organizations into a professional growth-oriented professional organizational culture. Strategic focus of CBM includes striving for world class accreditations such as AACSB. Using experiential learning, mentoring by well reputed industry executives, and innovating through specially designed courses and a lively and thriving culture of student activities.
BBA (Honors) program is among the most attractive programs of IoBM. It is a professional and comprehensive management degree providing conceptual knowledge with in-depth exposure to functional areas in business management including accounting, marketing, finance, management, entrepreneurship and MIS along with special emphasis on leadership, social awareness, creativity and innovation.

Specializations
- Accounting
- Entrepreneurship
- Finance & Banking
- Human Resource Management
- Industrial Management
- Management Information Systems
- Marketing
- Management
- Logistics & Supply Chain Management

Career Options
- Research Associates
- Supply Chain Analysts
- HR Executives
- Assistant Brand Managers
- Project Managers
- Bank Executives
- Auditors
- Equity & Bond Traders
BS (Honors) in Accounting and Finance prepares graduates for careers in banking and corporate finance.

**Career Options**
- Financial Analyst
- Assistant Fund Managers
- Auditors
- Equity & Securities Trader
- Banking Executives
- Tax Analysts

BS (Honors) Economics and Finance is a multi-disciplinary program of CBM that focuses on developing a professional career in finance and economics. The graduates can opt for opportunities in banking, corporate finance, equity and securities markets.

BS Industrial Management is a professional management degree program, which enables graduates to join manufacturing and process industries and contributes to efficiency and streamlining of industrial processes. They learn about HRM, supply chain management, project management, industrial health, inventory management, quality, safety, and environmental concerns.

BS Logistics & Supply Chain Management focuses on transportation, distribution, and warehousing activities of firms across the supply chain extending from raw material extraction to delivery to consumers. The supply chain starts from mining to raw material processing and supply to various manufacturing units that add value till the final production of finished goods are ready for distribution, retail and delivery to consumers. It also covers imports, exports and other compliance requirements.

BS Entrepreneurship

The program is designed to develop thought leaders with entrepreneurial spirit that can lead to the creation of new ventures within and outside existing enterprises. After completing the program, students will be able to design, launch and manage their entrepreneurial ventures through the stages of idealization, networking, experimentation, execution, break-even, growth, and investment.
The MBA program is designed to produce transformational, ethical and change leadership for businesses and industry through an integrated curriculum and experiential learning. It prepares graduates for business challenges emerging from globalization, connectivity and technology driven innovations. The program is designed to produce a skilled pool of business leaders possessing multidisciplinary expertise.

IoBM offers the following tracks in MBA:

MBA Regular – Evening 2Y: Designed for working professionals take MBA classes on week-days in the evening.

MBA Regular 2Y: Students take this option to continue with their MBA on weekdays.

MBA Program offered on Weekend: Developed for professionals and corporate executives who take MBA classes on weekends.
Logistics and Supply Chain Management

Logistics and Supply Chain Management specialization addresses strategic economic and process-oriented technical problems in logistics, supply chain management across industries and across countries. It covers complexities of moving goods across regions with diverse compliance requirements.

Industrial Management

Specialization in Industrial Management addresses real-life problems relating to industrial processes and discrete manufacturing. It focuses on project management, quality management, manufacturing effectiveness, logistics, warehousing and supply chain management.

Entrepreneurship and SME Banking and Finance

Specialization in Entrepreneurship and SME Banking and Finance is aligned with SBP policy of encouraging SME Banking and Finance for entrepreneurs and small businesses. The program caters to individuals who want to build their careers in SME sector.

Health & Hospital Management

Specialization in Health and Hospital Management is designed for building careers such as healthcare leaders, managers and decision-makers in health care institutions and pharmaceutical industry.

Media Management & Marketing

Specialization in Media Management and Marketing (MMM) seeks to develop quality human resource, capable of playing strategic leadership roles across a variety of mainstream media organizations as well as innovative media companies, and top-level, contemporary, consumer marketing companies.

Finance & Risk Management

Specialization in Finance and Risk Management is designed to cover financial decision-making with special emphasis on risk management including recent development in corporate risk management, sustainable risk management and risk financing techniques.

Environment and Energy Management

Specialization in Environment and Energy Management aims to prepare future decision-makers in companies, government and non-governmental organizations for analyzing and acting in an environmentally proactive and energy efficient way when making decisions about policy, production and resource utilization in energy generation, transmission and load management.

Health & Hospital Management

Specialization in Health and Hospital Management is designed for building careers such as healthcare leaders, managers and decision-makers in health care institutions and pharmaceutical industry.

Media Management & Marketing

Specialization in Media Management and Marketing (MMM) seeks to develop quality human resource, capable of playing strategic leadership roles across a variety of mainstream media organizations as well as innovative media companies, and top-level, contemporary, consumer marketing companies.

Finance & Risk Management

Specialization in Finance and Risk Management is designed to cover financial decision-making with special emphasis on risk management including recent development in corporate risk management, sustainable risk management and risk financing techniques.

Environment and Energy Management

Specialization in Environment and Energy Management aims to prepare future decision-makers in companies, government and non-governmental organizations for analyzing and acting in an environmentally proactive and energy efficient way when making decisions about policy, production and resource utilization in energy generation, transmission and load management.
MS Business Management

The MS program in Business Management is designed to meet the challenges of the business world and the growing demand for well-qualified and research-oriented scholars in Pakistan.

PhD Business Management

The mission of the PhD research program in business management is to pursue leading-edge research, engage in the development of innovative ideas and analytical skills, and encourage both faculty and students to be independent and creative thinkers.

PhD Environment and Energy Management

The program in Environment and Energy Management is a rigorous, interdisciplinary research program focusing on building theoretical models in the area of energy and/or environment. The research develops models relating to areas such as energy supply, sufficiency, and security for meeting future energy requirements. The models may also focus on environmental sustainability, impact models and trends relating to water supply, air quality, waste, etc.

MBA Boot Camp Orientation Program for New MBA Students

CBM challenges its incoming MBA students by offering a rigorous boot camp of orientation courses which fulfills the pre-requisite requirement to undertake first year foundation stage courses of the MBA program.

Students not possessing a four year Bachelor in Commerce or Business Administration are expected to complete the mandatory MBA Boot Camp.
ALUMNI EXPERIENCE

MAHNOOR ASLAM
Batch 2020,
BS Media Studies (Film/Production).

"While I was super skeptical about choosing IoBM for my undergraduate program, I can now proudly own it as my own after completing a degree in Media Studies, which equipped me with some life changing skills."

DR. AZEEM RAUF
Batch 2017,
MBA (Health & Hospital Management).

"When I first joined IoBM, my expectation was that the MBA (Health & Hospital Management) program would prepare me for the career ahead by equipping me with new knowledge and skills. While that certainly proved true, it was the unexpected skills I learned at IoBM that made me truly shine."
Mission of the College of Computer Science and Information Systems is to develop abstract skills of mathematical and statistical reasoning and analytical skills of theoretical computer science to solve problems of industry and society. The objective is to develop professionals who can design applied solutions in the area of data sciences, actuarial sciences, and scientific computing with strong theoretical foundations.
UNDERGRADUATE PROGRAMS

BS Mathematics and Computational Finance

This degree program will equip students having great mathematics skills and an inclination towards finance. Specialized courses in Mathematics and Computational Finance will give students with the opportunity to practice applying mathematics to finance.

CAREER PATH
Risk Manager
Asset Manager
Financial Consultant
Data Scientist
Data Analyst
Data Engineer

BS Software Engineering

Our BS Software Engineering degree program enables students to comprehend the intricate details pertaining to this specific industry. Students learn how to use their skills to develop, design and maintain a range of industry-specific and generic software systems. They understand market trends and forces affecting software systems and apply software engineering concepts to produce solutions.

CAREER PATH
Applications developer
Database administrator
Game developer
Multimedia programmer
Web developer
Software engineer
BS Data Science

BS (Data Science) focuses on statistical analysis and theoretical computer science to develop solutions that employ robust mathematical models. These models help AI and other predictive tools for data mining and reaching closer to solutions.

GRADUATE PROGRAMS

MS Computer Science

The Master of Science program in Computer Science enables graduates to learn the techniques related to the design, development and maintenance of software.

MS Statistics and Scientific Computing

This program helps students develop rigorous foundational statistical and computational tools to guide them in their careers as researchers, and solution providers.

BS Actuarial Science And Risk Management

BS in the Actuarial Science and Risk Management equips graduates with mathematical and statistical skills and expertise of tools that help in assessing risk in insurance, finance and other relevant industries and professions.

Career Options
- Actuarial Trainees
- Financial Quantitative Analysts
- Risk Management Analyst/Trainees
- Data Analyst
- Treasury Analyst
- Business Quantitative Analyst

BS Statistics and Business Analytics

Students develop strong quantitative skills by studying this program. They also develop organizational and technical competencies in data science to analyze business applications and produce decisions.

CAREER PATH
- Business Analyst
- Data Scientist
- Project Manager

BS Computer Science

The graduates of this program would acquire the confidence and skills to design ICT solutions and become technology entrepreneurs. The graduates may also join careers as software engineers and then move on to become analysts, designers and architects in software houses or be freelance solution providers. They may also go into management careers that require strong analytical skills.

Career Options
- Computer Programmer
- Software/Web Developer
- System Analyst
- Database Administrator
- Network Administrator
- Information Security Analyst

BS Actuarial Science and Risk Management

BS in the Actuarial Science and Risk Management equips graduates with mathematical and statistical skills and expertise of tools that help in assessing risk in insurance, finance and other relevant industries and professions.

Career Options
- Actuarial Trainees
- Financial Quantitative Analysts
- Risk Management Analyst/Trainees
- Data Analyst
- Treasury Analyst
- Business Quantitative Analyst

BS Mathematics and Economics

This program is jointly offered by CCGS & CESD

BS (Mathematics & Economics) is an inter-disciplinary program that enables graduates to design econometric models for economic and financial decision making. The graduates distinguish themselves as a result of rigorous modeling and predictive techniques.

Career Options
- Computer Programmer
- Software/Web Developer
- System Analyst
- Database Administrator
- Network Administrator
- Information Security Analyst

BS Mathematics

and Economics

BS (Mathematics & Economics) is an inter-disciplinary program that enables graduates to design econometric models for economic and financial decision making. The graduates distinguish themselves as a result of rigorous modeling and predictive techniques.

Career Options
- Computer Programmer
- Software/Web Developer
- System Analyst
- Database Administrator
- Network Administrator
- Information Security Analyst

BS Actuarial Science

And Risk Management

BS in the Actuarial Science and Risk Management equips graduates with mathematical and statistical skills and expertise of tools that help in assessing risk in insurance, finance and other relevant industries and professions.

Career Options
- Actuarial Trainees
- Financial Quantitative Analysts
- Risk Management Analyst/Trainees
- Data Analyst
- Treasury Analyst
- Business Quantitative Analyst

BS Data Science

BS (Data Science) focuses on statistical analysis and theoretical computer science to develop solutions that employ robust mathematical models. These models help AI and other predictive tools for data mining and reaching closer to solutions.

GRADUATE PROGRAMS

MS Computer Science

The Master of Science program in Computer Science enables graduates to learn the techniques related to the design, development and maintenance of software.

MS Statistics and Scientific Computing

This program helps students develop rigorous foundational statistical and computational tools to guide them in their careers as researchers, and solution providers.

MS Mathematics and Statistics

This program develops rigorous foundational mathematics and statistical tools enabling students to pursue careers as researchers and solution providers.

PhD Computer Science

The PhD program in Computer Science is focused on developing theories and models that form the core of tools used in software engineering and data analytics.

PhD Statistics & Scientific Computing

Mathematics & Scientific Computing

The PhD programs connect knowledge of three disciplines - mathematics, statistics and computer science to train and equip researchers to contribute to theory, to develop useful models and methods, and/or to conduct applied scientific investigations.

BS Statistics

and Business Analytics

Students develop strong quantitative skills by studying this program. They also develop organizational and technical competencies in data science to analyze business applications and produce decisions.

CAREER PATH
- Business Analyst
- Data Scientist
- Project Manager

BS Computer Science

The graduates of this program would acquire the confidence and skills to design ICT solutions and become technology entrepreneurs. The graduates may also join careers as software engineers and then move on to become analysts, designers and architects in software houses or be freelance solution providers. They may also go into management careers that require strong analytical skills.

COlLege of eNGINEERING & sCIences (CES)

3

Reasons to Join CES

Outcomes-based accreditation through Washington Accord provides internationally recognized professional competencies

Industry relevant projects and applied laboratories develop hands on expertise and confidence necessary for entrepreneurial engineering

Active collaboration with industry and international organizations for developing exciting career options

“Entrepreneurial Engineering with Excellence”

College of Engineering and Sciences (CES) was established to realize IoBM’s mission of creating an impact as a multidimensional institution of higher learning. The college strives to develop entrepreneurial engineers who have the technical skills and confidence to create new engineering technologies and design innovative engineering products and processes.
Electrical Engineering graduates are empowered to enable the growth of electrical, electronics and telecommunication industry through technical expertise, confidence and entrepreneurial spirit.

Specializations
- Electronic Engineering
- Telecommunication Engineering

Career Options
- Electric Engineer
- Systems Engineer
- Electronics Engineer
- Quality Control Associate
GRADUATE PROGRAMS

MS Engineering Management
The MS in Engineering Management degree bridges the gap between engineering potential and its gainful exploitation for business and economic advantage by focusing on efficiency, productivity and effectiveness.

MS Electrical Engineering
The MS Electrical Engineering enables the graduates to be research-based designers of devices and systems that provide innovative solutions for entrepreneurial engineering.

IoBM Outreach Program
On the eve of completion of its two decades, IoBM successfully launched an Outreach Program from Fall Semester 2015 having the distinction of being the first private university in Sindh to launch two four-year fully funded bachelor degree programs in Electrical Engineering and Industrial Engineering for students from less privileged areas of Sindh.

In the last three phases, we started the program for candidates of district Tharparkar, Umerkot, Badin, Thatta, Sujawal, Sanghar, Ghotki, Dadu and Jamshoro. Sixteen candidates were admitted in Fall Semester 2015, 18 candidates in Spring Semester 2017 and thirteen candidates in Spring Semester 2018, respectively. The IoBM is starting the admission process for its 5th Batch from Spring Semester (January 2020).
The College of Economics and Social Development (CESD) is a social sciences and liberal arts college with graduate and undergraduate programs in areas such as economics, psychology, education, media, law and international relations. Mission of the college is to contribute to the social and economic development by focusing on creative, professional and research-based interventions.
UNDERGRADUATE PROGRAMS

BS (Honors) Accountancy, Management and Law

The BS (Hons) Accountancy, Management and Law program is designed to enable graduates to obtain professional certifications from accountancy bodies having international and national charters. The program is accredited by two world-renowned accountancy bodies, namely, the Institute of Chartered Accountants of Pakistan (ICAP) and the Association of Chartered Certified Accountants (ACCA), United Kingdom. Students opting for the ICAP qualification get exemption from all four papers of Assessment of Fundamental Competencies (AFC) and the first four papers of Certificate in Accounting and Finance (CAF). Students opting for the ACCA qualification get exemption in nine subjects.

Career Options
- Auditors
- Tax Consultants
- Compliance Managers
- Financial Analysts
- BS Honors Media Studies

BS (Honors) Media Studies

The BS (Honors) Media Studies program is designed to provide students with strong grounding in a broad academic base for pursuing a professional career in institutional or entrepreneurial – in the wider field of media and film arts.

Career Options
- Film Director
- Producer
- Line Producer
- Art Director
- Cinematographer
- Editor
- Sound Designer
- Journalist
- Photojournalist
- TV Anchor
- Economic Journalist
- Writer
- Investigative Reporter

BS (2.5 Y) Weekend

These degree programs are offered to forthcoming pre-service and in-service teachers, potential and current school administrators, enterprising educational entrepreneurs and prospective and current administrators of educational organizations.

BS (Honors)

This program is designed to provide opportunities to prospective teachers to carry out action research, exercise critical thinking, study contemporary problems, and accomplish field work. The prospective teachers visit schools for practicum and interact with the communities to gain insight from practical experiences. These trained teachers after intensive education, envision to transform the teaching and learning scenario in Pakistan.

BS Economics, Media and International Relations (EMI)

The multidisciplinary undergraduate program combines two key social science disciplines - Economics and International Relations - with Media, adding a third dimension that has increasingly become a powerful force for disseminating messages and conducting international diplomacy. Media is determining economic sentiments and is being used for hot and cold war, and for applying international pressure, sanctions and retributions.

BS Joint (Honors) Business and Psychology

The BS Joint (Hons) in Business and Psychology program is designed to provide strong foundation in business and integrate core psychological principles. Organizational leadership for the new generation requires understanding of their motivations and aspirations and accordingly designing business policies that meet the organizational objectives.

Career Options
- Film Director
- Producer
- Line Producer
- Art Director
- Cinematographer
- Editor
- Sound Designer
- Journalist
- Photojournalist
- TV Anchor
- Economic Journalist
- Writer
- Investigative Reporter

BS Economics, Media and International Relations (EMI)

The multidisciplinary undergraduate program combines two key social science disciplines - Economics and International Relations - with Media, adding a third dimension that has increasingly become a powerful force for disseminating messages and conducting international diplomacy. Media is determining economic sentiments and is being used for hot and cold war, and for applying international pressure, sanctions and retributions.

BS Joint (Honors) Business and Psychology

The BS Joint (Hons) in Business and Psychology program is designed to provide strong foundation in business and integrate core psychological principles. Organizational leadership for the new generation requires understanding of their motivations and aspirations and accordingly designing business policies that meet the organizational objectives.
The PhD in Economics is designed to enable the graduates to become independent researchers who can rigorously analyze problems in the area of economics and propose solutions that are based on theoretical models analyzed through established research paradigms. The graduates become part of the international community of researchers in economics through participation in international conferences and journal publications. They have the capacity to analyze national and international issues related to economics advancement and participate in policy deliberations.

**MBA Specialization in Educational Management**

The MBA Specialization in Education Management provides knowledge, skills, and tools required for 21st century leadership and management of educational institutions in the fast changing economy. The program is designed to explore the relationship of curriculum management, assessments, educational policy and outcomes with faculty management, school management, and financial and strategic management of the institutions.

**MSc Organizational Psychology and Human Resource Management**

This program prepares graduates for challenging careers in HR management and leadership. It enables the graduates to understand the social, psychological and behavioral dynamics of people as impacted by organizational and HR policies.

**MS English - Applied Linguistics**

The MS in English-Applied Linguistics program develops a research-based understanding of issues in the field of Applied Linguistics.

**MS Economics**

The MS in Economics is specially designed for those intending to be economists and researchers in economics. This research degree prepares graduates with research methodologies, tools and analytical skills required for research in economics. It enables them to undertake rigorous research thesis in their chosen area of economics.

**MPhil Education**

This research-based program is designed for teachers who want to excel in their careers in the private or public sector institutions.

**MPhil Organizational Psychology**

This program is designed specifically for the training of professional industrial-organizational psychologists. Students will receive comprehensive training in utilizing psychological knowledge for improving organizational effectiveness and employee satisfaction. The course content is designed to impart research-based knowledge and skills. It trains managers to effectively analyze workplace environment and equip themselves with the skills of evaluating work outcomes. It also encourages the research contributions of new scholars in the field of organizational psychology.

**PhD Education**

The aim of PhD Education is to enable the graduates to become independent researchers who can rigorously analyze problems in the area of education and propose solutions that are based on theoretical models analyzed through established research paradigms. The graduates become part of the international community of researchers in education through participation in international conferences and journal publications. They have the capacity to analyze national and international issues related to education advancement and participate in policy deliberations.

**MS Economics**

The MS in Economics is specially designed for those intending to be economists and researchers in economics. This research degree prepares graduates with research methodologies, tools and analytical skills required for research in economics. It enables them to undertake rigorous research thesis in their chosen area of economics.

**MPhil Education**

This research-based program is designed for teachers who want to excel in their careers in the private or public sector institutions.
INTERNAL
IoBM has established a financial assistance fund for students who are unable to afford the financial costs associated with an academic program. Assistantships and financial assistance are provided to students on the basis of merit and need. Currently, about 35% of the students are receiving some form of financial aid.

Scholarships Under CSR Activity
• IoBM Outreach Program
• TCF Alumni Program

EXTERNAL
Following External Financial Assistance Programs Are Being Offered To Students
• Endowment Fund - Education Department, GOS
• IoBM Endowment Fund
• Shahjehan Karim & Family Endowment Fund
• Bashir Jarmohammad CCGS Building Endowment Fund
• Mehbooba and Syed Karimuddin Endowment Fund
• Mitsubishi Corporation Endowment Fund
• Tabba Foundation
• Endowment Fund - Shan Foods

Scholarships Are Also Available On Reciprocal Basis To
• Bilkent University, Turkey
• International Burch University, Bosnia
• University of Florence, Italy
• Vytautas Magnus University, Lithuania
• Hanyang University, South Korea
• Guilin University of Technology, China
• Erfurt University, Germany
SOCIETIES

IoBM encourages its students to take part in co-curricular & extra-curricular activities. For that purpose, we have different student representative societies with a Faculty Advisor and its own President / Vice President. There are more than 17 student societies currently operating on the campus with more than 35% students engaged with some sort of student activities.

LIFE AT IoBM

Institute of Business Management has a purpose built twenty acre campus located in the serene and secure surroundings of Korangi Creek, Karachi. The Institute’s buildings, covering an area of 500,000 sq. ft., is equipped with state-of-the-art teaching equipment to enable the Institute to keep pace with the dynamics of the global market. All classrooms are equipped with internet and intranet facilities. IoBM is a WiFi campus. The campus buildings are centrally air-conditioned and they have all been self-financed with no outside assistance or donation.
International Relations Department

The Institute of Business Management (IoBM) has an International Relations Department that works under the supervision of the President of IoBM. The Department is successfully managing execution of international relations on bilateral and multilateral terms with a large number of universities in Europe, Asia and USA.

Bilateral Agreements

IoBM has bilateral agreements under a formally signed Memoranda of Understanding (MoU) with 70 universities in the following countries which provide exchange of students, faculty and staff and promote joint research and consultancy.

SPORTS AND WELLNESS

IoBM focuses keenly on well-being of the students and sports. On campus, there are multiple indoor and outdoor sport facilities available that include cricket, futsal, basketball, squash, badminton, throwball, billiard, table tennis, chess and ludo. We are proud to have one of the best performing cricket and football teams in the city.

IoBM also has two separate purpose-built gyms for our female and male students. Every year there are multiple intra-university and inter-university sport events on the campus to promote healthy competition between the students.
EXCHANGE PROGRAMS

IoBM students have gone to the following universities on student exchange programs:

IoBM has entered into an understanding with these universities for exchange of students on the basis of a waiver of university tuition fees and in some cases, provision of free hostel facilities. Students who go from IoBM to Erfurt University of Applied Sciences, Germany for undergraduate studies for a semester also work with leading German companies as internees and thus gain practical experience. IoBM also welcomes students from partner universities to spend a semester at IoBM. More students are expected from different universities in the upcoming semesters through the student exchange program. Experts visit IoBM for a semester from Spain, Germany, China and Nigeria. Exchange of students, faculty members as well as joint research projects are a continuous process involving universities all over the world.

INTERNSHIPS AND PLACEMENT

Internship Program

The Internship & Placement office of IoBM ensures that students get experience in highly competitive organizations. Their fresh ideas, unique perspectives and fundamental knowledge are important assets that can help shape the future of an organization. The Internship Program for interns is designed to provide students with the opportunity to work on meaningful assignments and gain real-world experience.

Placement Program

IoBM lays tremendous emphasis on its close collaboration with the government, firms, banks and leading HR consultants so as to ensure appropriate induction of its graduates into such organizations. Close links are maintained with CEOs and Heads of Departments in organizations so as to provide graduates with the best possible career prospects. Efforts are made to match the talents of students with the requirements of both multinational and local organizations.
SSK Academic Writing Center

The Shahjehan S. Karim Academic Writing Center aspires to support all writers within the IoBM family, particularly those at undergraduate and graduate levels, and promote an environment in which students’ attainment differences are accepted and attended to. A diverse group of writing tutors endeavor to uphold IoBM’s values of discovery, scholarship, and excellence. The SSK Academic Writing Center is committed to:

- Helping students at all levels of the writing process.
- Supporting and furthering cooperation among writers.
- Applauding growth and variety of language.
- Employing best practices and research-assisted education.
- Advocating understanding of inter-curricular thinking and writing.

Student Activity Center

The IoBM Student Activity Center (SAC) is a bustling hub for all activities ranging from extracurricular to scholastic, and to social and recreational. There is never an instance when the SAC is unoccupied; be it the early hours of Sunday mornings or the late hours of Monday evenings.

Library

IoBM’s library, an ideal place for learning and research, provides both traditional and electronics resources. Currently it has over 52000 resources including access to JSTOR. The library accommodates 350 students and also provides OPAC (online public access catalogue).

Student Counseling

IoBM provides a compassionate learning environment catering to students’ counselling needs in professional and academic development. Each faculty member has a specified slot in a day allocated to counselling. Students may approach them in the specified hours.
The exemption from Aptitude Test on SAT-1 for BBA/BS/B.Ed. candidates

Exemption from Aptitude Test on SAT-1

The applicant can apply for exemption in appearing in the IoBM Aptitude Test:

- A score of 550 (out of 800) in Mathematics
- A score of 550 (out of 800) in Evidence-Based Reading and Writing

A total score of 1100 is required for the exemption
UNDERGRADUATE

Bachelor's Program

The admission for Bachelor’s Programs would be based on any one of the following:

- A Higher Secondary School (HSC) Certificate with at least *55% marks awarded by a recognized Provincial Intermediate Board
- 3 A-Levels with at least C grades in any subjects
- American High School Diploma with CGPA 2.5 or equivalent
- Recognized Overseas Equivalence Diploma
- Any other qualification if an authority has issued an equivalence certificate with minimum 55%
- IBCC equivalence may be required for A-Level and other foreign qualifications

In addition:

- At least 5C grades in O-Level exams (If you are studying O levels in Pakistan, then you need a total of eight subjects including: English, Urdu, Islamiyat, Pakistan Studies, and Math’s as compulsory subjects. The remaining three subjects are electives)
- IBCC equivalence may be required for O-Level and other foreign qualifications
- Minimum 55% marks in SSC or equivalent
- Success in aptitude test and the panel interview conducted by IoBM

*Subject to revision by the IoBM Management

BS Computer Science, BS Software Engineering, BS Actuarial Science and Risk Management, BS Mathematics and Economics, BS Data Science, BS Mathematics & Computational Finance and BS Statistics and Business Analytics Programs

The admission for Bachelor’s Programs would be based on any one of the following:

- A Higher Secondary School (HSC) Pre-Engineering Certificate with at least *55% marks awarded by a recognized Provincial Intermediate Board
- 3 A-Levels with at least C grades including Mathematics subject
- American High School Diploma with CGPA 2.5 or equivalent
- Recognized Overseas Equivalence Diploma
- Any other qualification if an authority has issued an equivalence certificate with minimum 55%
- IBCC equivalence may be required for A-Level and other foreign qualifications

In addition:

- At least 5C grades in O-Level exams (If you are studying O levels in Pakistan, then you need a total of eight subjects including: English, Urdu, Islamiyat, Pakistan Studies, and Math’s as compulsory subjects. The remaining three subjects are electives)
- IBCC equivalence may be required for O-Level and other foreign qualifications
- Minimum 55% marks in SSC or equivalent
- Success in aptitude test and the panel interview conducted by IoBM

*Subject to revision by the IoBM Management
For admission in the B.Ed. 1.5 year Week-end program, the candidate must possess:
16-years of Education (MA, M.Sc., M.Com. or equivalent) in any discipline like Sciences, Social Sciences, Humanities and others, with at least 45% or 2.00 CGPA out of 4 from a University/Institution recognized by HEC.

For admission in the B.Ed. 2.5 year Week-end program, the candidate must possess:
BA / BSc / B.Com or equivalent degree (14 years of education) with minimum 45% or 2.00 CGPA out of 4 from a University/Institute recognized by HEC.

For admission in the B.Ed. 4 year program, the candidate must possess:
• A Higher Secondary School (HSC) Certificate with at least *55% marks awarded by a recognized Provincial Intermediate Board
• 3 A-Levels with at least C grades in any subjects
• American High School Diploma with CGPA 2.5 or equivalent
• Recognized Overseas Equivalence Diploma
• Any other qualification if an authority has issued an equivalence certificate with minimum 55%
• IBCC equivalence may be required for A-Level and other foreign qualifications

In addition:
• At least 5C grades in O-Level exams (If you are studying O levels in Pakistan, then you need a total of eight subjects including: English, Urdu, Islamiat, Pakistan Studies, and Math’s as compulsory subjects. The remaining three subjects are electives)
• IBCC equivalence may be required for O-Level and other foreign qualifications
• Minimum 55% marks in SSC or equivalent
• Success in aptitude test and the panel interview conducted by IoBM

*Subject to revision by the IoBM Management

BE Electrical Engineering

The admission for Engineering Programs would be based on any one of the following:
A Higher Secondary School (HSC) Pre-Engineering Certificate with at least *60% marks awarded by a recognized Provincial Intermediate Board

• 3 A-Levels with at least a C grade, in Mathematics, Chemistry and Physics
• American High School Diploma with CGPA 2.5 or any other qualifications
• Any other qualification if an authority has issued an equivalence certificate with minimum 55%
• IBCC equivalence certificate will be required for A-Levels and other foreign qualifications

In addition:
• At least 5C grades in O-Level exams (If you are studying O levels in Pakistan, then you need a total of eight subjects including: English, Urdu, Islamiat, Pakistan Studies, and Math’s as compulsory subjects. The remaining three subjects are electives)
• IBCC equivalence may be required for O-Level and other foreign qualifications
• Minimum 55% marks in SSC or equivalent
• Success in aptitude test and the panel interview conducted by IoBM

*Subject to revision by the IoBM Management

B.Ed. Honors

For admission in the B.Ed. 1.5 year Week-end program, the candidate must possess:
16-years of Education (MA, M.Sc., M.Com. or equivalent) in any discipline like Sciences, Social Sciences, Humanities and others, with at least 45% or 2.00 CGPA out of 4 from a University/Institution recognized by HEC.

For admission in the B.Ed. 2.5 year Week-end program, the candidate must possess:
BA / BSc / B.Com or equivalent degree (14 years of education) with minimum 45% or 2.00 CGPA out of 4 from a University/Institute recognized by HEC.

For admission in the B.Ed. 4 year program, the candidate must possess:
• A Higher Secondary School (HSC) Certificate with at least *55% marks awarded by a recognized Provincial Intermediate Board
• 3 A-Levels with at least C grades in any subjects
• American High School Diploma with CGPA 2.5 or equivalent
• Recognized Overseas Equivalence Diploma
• Any other qualification if an authority has issued an equivalence certificate with minimum 55%
• IBCC equivalence may be required for A-Level and other foreign qualifications

In addition:
• At least 5C grades in O-Level exams (If you are studying O levels in Pakistan, then you need a total of eight subjects including: English, Urdu, Islamiat, Pakistan Studies, and Math’s as compulsory subjects. The remaining three subjects are electives)
• IBCC equivalence may be required for O-Level and other foreign qualifications
• Minimum 55% marks in SSC or equivalent
• Success in aptitude test and the panel interview conducted by IoBM

*Subject to revision by the IoBM Management
Two Year MBA (Regular) Weekend/Evening Programs

The admission in MBA (Regular) Weekend / Evening Programs would be based on any of the following:

- Sixteen years of Education in Arts, Science, Law, Commerce, Engineering, Medicine, Pharmacy or any other degree with high second division or equivalent from HEC/Provincial Government approved Institutes/Colleges/Universities in Pakistan.
- A final qualification examination of a professional body recognized by the Higher Education Commissions of Pakistan, for example, ACMA, CA, ACCA (HEC equivalence certificate required).
- Four years overseas bachelor’s degree or equivalent recognized by HEC.
- Minimum 55% marks in overall academic career in annual examination system or 5C’s in O-Level and 3 A-level with minimum 2C’s excluding General Paper and Urdu or equivalent.
- Minimum CGPA 2.5 on a scale of 4 in semester system.
- Success in aptitude test and interview conducted by IoBM.

*Eligibility criteria is subject to revision by the IoBM Management.

GRADUATE

Two Year Master’s Program

The admission for Master’s Programs would be based on any one of the following:

- Sixteen years of Education in Arts, Science, Law, Commerce, Engineering, Medicine, Pharmacy or any other degree with high second division or equivalent from HEC/Provincial Government approved Institutes/Colleges/Universities in Pakistan.
- A final qualification examination of a professional body recognized by the Higher Education Commissions of Pakistan, for example, ACMA, CA, ACCA (HEC equivalence certificate required).
- Four years overseas bachelor’s degree or equivalent recognized by HEC.
- Minimum 55% marks in last qualification in annual examination system.
- Minimum CGPA 2.5 on a scale of 4 in semester system.
- Success in aptitude test and interview conducted by IoBM.
- Minimum one-year post qualification work experience in Multinational or Domestic Corporation is required (only for MBA Regular on Weekend). Candidate must be working while applying online for admission and also during the period of study.
- Experience in unknown or unregistered companies will not be considered.

*Subject to revision by the IoBM Management.
POST-GRADUATE

MS/MPhil Programs

It is based on any one of the following:

• Sixteen years of education in relevant field with high second division or equivalent from HEC recognized institutes/Universities in Pakistan

OR

• Four years overseas bachelor’s degree or equivalent recognized by HEC

In addition:

• Minimum 55% marks in overall academic career in annual examination system or 5C’s in O-Level and 3 A-level with minimum 2C’s excluding General Paper and Urdu or equivalent
• Minimum CGPA 2.5 on a scale of 4 in semester
• Candidates must score minimum 50% marks in exam conducted by NTS/ETC
• Success in panel interview conducted at IoBM

PhD Programs

Candidates having 18 years of a relevant education from an HEC recognized university are eligible to apply. For admission into PhD Program a minimum CGPA 3.0 on a scale of 4 or First Division in M.Phil/M.S/ Equivalent degree is required, in addition to a certain number of deficiency courses the program comprises course work of 18 credit hours and a Thesis of 30 credit hours. The duration of the PhD program is from a minimum 3 years to a maximum 8 years.

• Minimum CGPA 3.0 is required for candidates having MBA or equivalent degrees. Students with Master’s degrees will have to do pre-requisite courses recommended by the committee (HEC equivalence certificate is also required)
• Students with HEC recognized professional degrees i.e., ACMA, CA, ACCA may also apply subject to equivalence certificate issued by the HEC

In addition:

• Minimum 55% marks in overall academic career in annual examination system or 5C’s in O-Level and 3 A-level with minimum 2C’s excluding General Paper and Urdu or equivalent
• Success in interview conducted by IoBM
• Candidates must pass NTS (60% or more marks in subject exam) or equivalent
• PhD candidates will also have to fulfill more specific requirements laid out by the respective departments

*Subject to revision by the IoBM Management
IoBM operates on a self-financing basis as a non-profit institution. All students are required to pay a one-time, CAUTION MONEY of Rs. 15,000 which is refundable only as per the policy.

The fee structure for various degree programs, per semester, is as follows:

<table>
<thead>
<tr>
<th>Program</th>

The registration duration of thesis is one year (3 consecutive semesters) after 3rd semester. Students will be required to get themselves re-registered in thesis by paying registration fee and one course fee for the subsequent semesters.

Note:

5% advance tax as per section 236I of the Income Tax Ordinance 2001 will be collected in addition to fees. Further, tax collected under above section shall be adjustable against the tax liability of either of the parents or guardian making payment of the fee.

Discipline

IoBM stands out among other universities for its special emphasis on maintaining good order and discipline among its students. It reserves the right to prescribe such regulations from time to time as may be considered expedient for effectively maintaining the highest standards of conduct. The regulations set out below are IoBM’s General Regulations for discipline.

The General Regulations provide that:

No student of IoBM shall:

- disrupt the activities and functions of the Institute;
- damage any property of the Institute or of any faculty member, visitor or employee of the Institute or knowingly misappropriate such property;
- forge or falsify any certificate/degree issued by IoBM or knowingly make false statements concerning standing or results obtained in examinations;
- engage in violent, indecent, disorderly, threatening, or offensive behavior or language;
- engage in the harassment/disrespect of any faculty member, peer, visitor, employee of the Institute;
- exhibit behavior that is inappropriate in terms of the norms and cultural values of the Institute and society in general;
- engage in any political activity while enrolled at IoBM;
- disrespect/disregard any guidelines/instructions prescribed by faculty and management of the Institute;
- assist or encourage directly or indirectly any person to act in breach of the above
No student of IoBM shall breach any regulation:

a) relating to the use of the libraries or the information and communication technology facilities at IoBM;

b) relating to conduct in examinations;

c) assist or encourage directly or indirectly any person or persons to act in breach of the above mentioned regulations.

Professional Attire Policy:

IoBM expects all its male and female students to dress professionally as future leaders. Detailed policy is available online on website and catalog.

Students may log on to our website www.iobm.edu.pk for policies pertaining to:

- Fee Refund Policy
- Dress Code
- Examination Norms
- Performance Evaluation & Standards
- ‘I’ Grade Policy
- Weightage Policy
- Rechecking Policy
- Leave for Absences
- Comprehensive Examination
- Re-Admission and Continuation Policy
- Transfer of Credits
